**Tamerlane Ventures Inc.: Geophysics
Outlines 36 Targets Warranting Further
Work on the Pine Point Lead-Zinc Property**

September 8, 2005

Tamerlane Ventures Inc. (TSX VENTURE:TAM) announces positive results from geophysical studies. An analysis by Stratagex Geophysical Consultants of Aeroquest Limited's AeroTEM helicopter-borne magnetic and electromagnetic survey of the Company's Pine Point lead-zinc property has determined that there are 36 EM responses worthy of further follow-up work.
