

Attention business/financial editors and reporters:

**Aeroquest International Limited (TSX:AQL) Files  
Defense and Counterclaim to Geotech Claim**

**Mississauga, Ontario, Sept. 22, 2008** - Aeroquest International Limited (TSX:AQL) ("Aeroquest") announced today that it has filed a Statement of Defense and Counterclaim in the Ontario Superior Court of Justice to the Statement of Claim of Geotech Ltd., Geotech Airborne Limited and Geo Equipment Manufacturing Ltd. (collectively, "Geotech") served on Aeroquest and previously announced on August 19, 2008.

Aeroquest has indicated in its defense, among other things, that the Geotech claim is without merit and denies all allegations contained in the claim regarding the alleged misappropriation of confidential information.

In addition, Aeroquest has filed a counterclaim in the amount of twenty million dollars for abuse of process and one million dollars for punitive and exemplary damages. The counterclaim alleges, among other things, that Geotech filed the initial claim with the sole purpose of damaging Aeroquest's business, operations and reputation and that the result of the disclosure of the claim was lost business opportunities to Aeroquest. Aeroquest is also seeking full recovery of its legal costs from Geotech.

The outcome of the claim and counterclaim cannot be determined at this time and none of the allegations in the Statement of Claim and Statement of Defense and Counterclaim have been proved in court. Within 24 hours, Aeroquest expects to have complete copies of the Statement of Claim and Statement of Defense and Counterclaim available to interested parties at [www.aeroquest.ca](http://www.aeroquest.ca).

**About Aeroquest**

Aeroquest is a global information and technology services company and a leader in the development and operation of innovative and proprietary geophysical surveying platforms for the mineral and petroleum exploration, and environmental services industries. Directly, and through its sister companies UTS Geophysics and Geophex, Aeroquest fields a fleet of helicopter and fixed wing survey systems and is active around the world. More information about Aeroquest can be found at [www.aeroquest.ca](http://www.aeroquest.ca). More information on UTS Geophysics can be found at [www.uts.com.au](http://www.uts.com.au). More information on Geophex can be found at [www.geophex.com](http://www.geophex.com).

**For Investors**

This news release may include statements about expected future events and/or financial results that are forward-looking in nature and subject to risks and uncertainties. Aeroquest cautions that actual performance will be affected by a number of factors, many of which are beyond its control. Future events and results may vary substantially from

what Aeroquest currently foresees. Discussion of the various factors that may affect future results is contained in Aeroquest's recent filings, available on SEDAR.
